Roxanne,

I need confirmation on the location of the well for lapsed permit 63-31430. The attachment is a screen shot of the subdivision from our 2004 NAIP imagery. I believe that the well is located within the lot outlined in aqua and that the building I see in that lot is the pump house.

However, the current POD in the database is the grey dot located in a lot across the street, and southeast. And DEQ spatial data has a public supply well drilled by Hunemiller located in one of the empty triangular lots in the NE corner.

Thanks  
Michele  
287-4946
