**RE: Water Right Permit No. 71-07164**

Dear Permit Holder(s):

The Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms the extent of development established, to be in compliance with the terms of the permit. As the examiner who verified your water use I found that certain elements of the permit have been developed differently than described on the permit. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, your permit must be amended to depict your water use as it was actually developed. Based on the examiner's report, the following elements were developed differently than described on your permit:

☒ **Point(s) of Diversion**

☒ **Place(s) of Use**

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$50.00 filing fee within 14 days.

During the field exam I met with Merritt Horsman on-site at Redfish Cabin, at that time he indicated that you would be the point of contact for the permit amendment documents. If you have any questions, please call me at (208) 287-4919 or email me at [mathew.weaver@idwr.idaho.gov](mailto:mathew.weaver@idwr.idaho.gov).

Respectfully,

Mathew Weaver, PE  
Staff Engineer
