Subject: micro-hydro h2o app#74-15895

Dept of Water Resources,
900 N. Skyline Dr. suite A
Idaho Falls, Id. 83402-1718

To whom it may concern,
In response of your letter dated Jan.29, 2009 from Sharla Cox, This is our reply to the 7 questions from Page one.

- #1. The quantity of water is not effected by our unit as all water is returned to the creek.
- #2. The amount of water needed does not effect agency creek. 2.19cfs is less than 1/4 of the flow in Agency Creek at time of low water.
- #3. Project is completed, no additional cost.
- #4. No further finance needed as project is complete.
- #5. Public impact is 0 as we do not take the water, Water used is immediately returned, 0 impact.
- #6. N/A
- #7. Zero

Comment: We have no outside source for power so this micro hydro really does not effect or benefit any one but our immediate household. It has no ill effects on the Agency Creek drainage.

Sincerely, Bill Omler
