)
) For water right: 37-21366
)

The above-captioned water right is part of a subcase involving objections to a proposed General Provision in Basin 37, Part 2, for Irrigation and Other Rights. On August 21, 2008, the parties of the subcase filed a *Stipulation to Resolve Basin 37 Part 2 General Provision Objection*. The *Stipulation* calls for the language of the General Provision to be included on the face of each *Partial Decree*.¹ However, prior to receiving the *Special Master's Report and Recommendation* on the General Provision's language, the *Partial Decree* was issued for this water right on May 15, 2008. Thereafter, it was brought to this Court's attention that the *Partial Decree* was issued without the General Provision language. Because the Court finds this is due to a clerical error, the Court finds no reason to delay entry of an *Amended Partial Decree*. This Court will also separately issue a *Partial Decree* for the General Provision.

Therefore, pursuant to I.R.C.P. 60(a), IT IS ORDERED that water right 37-00817 is hereby **amended and decreed** as set forth in the attached *Amended Partial Decree Pursuant to I.R.C.P. 54(b)*.

¹ In the SRBA, in order to avoid delay in decreeing individual water rights, General Provisions are decreed separately from the Partial Decrees for individual rights. The Partial Decrees for individual rights include "savings language" which incorporates any General Provision that is ultimately decreed. Although the settlement in the instant case required the General Provision to appear on the face of the Partial Decree, a General Provision decreed separately and incorporated into savings language is just as applicable to the right and enforceable the same as if it appeared on the face of the Partial Decree.
