RE: App For Transfer 74314 Big Sky Dairy (Irrigation)

Dear Gary;

My initial review of this application has generated several questions. We have already discussed the need for a copy of the deed for the N $\frac{1}{2}$ SW $\frac{1}{4}$ Sec. 32, so I will cover other issues here. The proposed ppu appears to be based on the 2004 or similar aerial photo, but the 2006 photo is different in several areas. It appears that some pivots have been replaced with hand/wheel lines, allowing areas to be irrigated that were dry in 2004. Copies of ArcView photos for both years are enclosed so you can see what I mean. The land description in the transfer does not jibe with the presence of the 8-acre half mini-pivot in Sec. 5, for example. Do the 2 mini pivots in Sec. 36 & 31 go all the way around?

As far as the points of diversion are concerned, the well in Sec. 31 is listed in the water right as being in the NW/NW/NE. The transfer shows the NE/NE/NW, however. Which is correct?

Regards,

James E. Stanton
Sr. Water Resource Agent
