RE: App For Transfer 74314 Big Sky Dairy

Dear Gary;

I have done about all I can with this transfer until one last question is answered. The well on the north side of Sec. 31 has been decreed as being in the NW/NW/NE, and this appears to be correct based on the 2006 ArcMap photo. But you list this well as being in the NE/NE/NW. Since they are not drilling any new wells, I presume that you are not trying to change how the existing wells are described. So is your description an error, or are they trying to change it for this well? If your description is in error, please provide a new Attachment B.

This is the transfer for the Sanders property south of Burley Butte; a copy of my final ArcMap shape is enclosed for your records. The shape matches your land description as closely as I could make it, leaving in some dry corners in order to preserve the acres under the water rights.

Regards,

James E. Stanton
Sr. Water Resource Agent
