Protestant owns prior rights downstream of the recreational storage the use will interfere with the
flow of water to the protestant's property and interfere with the protestant's use of the water.
The flow in the stream without the proposed storage is inadequate to provide enough water to
allow protestant to use its full prior water right.

7. What would resolve your protest? Allow the prior right of protestant to be met by having all junior
storage to be released untill the protestant's prior downstream use is met.
