Re: Combined Applications for transfer -Idaho Water Co.

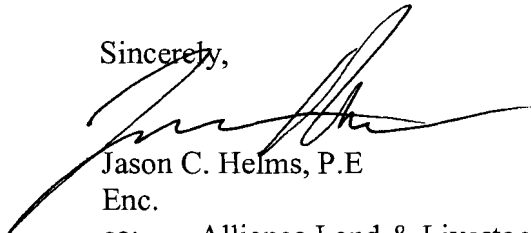

Dear Dave:

Enclosed please find completed applications for transfer prepared on behalf of Idaho Water Co., KBC Farms, Bowler Ranches, Alliance Land & Livestock and Stoker Dairy. The applicants seek to transfer portions of water rights to various uses and points of diversion within Basins 45 and 34. The transfers dry up existing water right acres at existing farms to provide the consumptive volume for the new uses.

The attached combined ESPA mitigation analysis was performed based on combination of the transfers. The net effect of all transfers maintains historical Snake River reach depletions within 5%.

I have attached the ESPA mitigation analysis and pertinent contracts which demonstrate proper authority to file the enclosed transfers. Finally, I have included Brockway Engineering Check # 7327 for \$3360.⁰⁰ which should cover the applicable transfer fee associated with the transfers. If you have any questions or need additional information, please don't hesitate to ask.

Sincerely,

Jason C. Helms, P.E
