

MEMORANDUM

TO: Allen Merrit and Ernie Carlsen

FROM: Pam Skaggs 

SUBJECT: Set of 8 Combined Off-Setting Transfer Applications

DATE: August 30, 2007

=====

I have forwarded a copy of these transfers to the Hydrology Section for review of the combined ESPA Model mitigation plan. I am sending the original documents from this package to the region offices for initial processing; A-D & other documentation to Southern & E-H to Eastern. You each have a complete copy of all the transfers for reference & to complete the individual transfer folders.

We will need to coordinate the processing, advertising etc. It was also brought to my attention that the same right may be in more than one transfer, or region's transfers. These rights may need to be split prior to entering them into the transfers. Be sure to contact each other if these types of issues are found through your initial review prior to data entry. We don't want to have to untangle them later.

Bring any other questions to our weekly meetings. If needed, we can have a combined meeting to discuss issues & coordinate processing.
