Re: assignment

On 1/12/09, Mrs. Peter A Simon (Cheryl L Simon) came into the state office to try to resolve some water rights ownership issues. She provided documents showing that her husband is deceased and she is the personal representative of his estate, which was sufficient to assign permit 72-16727 to her.

In addition, she also brought in record of a survey of the Simon property that may assist us with her other water rights questions. The property has two other water rights associated with it. They are 72-7449 and 72-10466.

I made copies of all pertinent documents and inserted them into the appropriate files.
