Keith:

Per our phone conversation today I have revised our transfer submittal slightly for Water Right No. 85-7146. Please replace the attached pages as sheets 1-4 of our original submittal. Please contact me should you have any further questions or concerns.

Sincerely,

Jonathan Netzloff, P.E.

Attachments: Transfer Application 85-7146 Sheet 1.PDF

New Page #1 with
changes made

Keith:

As discussed, please find the attached revision changing the transfer to only include the addition of a diversion point. The previous request to change a point of diversion for well #1 has been removed. Sheet 1 attached was the only page impacted by this change. Please include it in our original submittal package and process appropriately.

Thanks!

Jonathan,

You are correct in that the original license for water right 85-7146 shows the point of diversion as being in the SWSW of Section 17. When Lewiston Orchards filed a claim, on this license in the Snake River Basin Adjudication, they corrected the point of diversion location and the court subsequently issued a partial decree for 85-7146, in August of 2005, changing the point of diversion to the NENW of Section 22. You can find the partial decree in the back file for 85-7146, case number 39576.

The Lewiston Orchards transfer should be for adding Well #4 as a point of diversion to 85-7146.

If you have any questions, let me know.

Keith.

Keith:

Please find my attached review per our conversation yesterday. Let me know how you would like to proceed with this.

Thanks!
