WATER RESOURCES
DIVISION
WESTERN REGION

STATE OF IDAHO

DEPARTMENT OF WATER RESOURCES

APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

1. Name of Applicant City of Nampa Phone 208-468-5420
Mailing address 411 Third Street South, Nampa, ID 83651 Email fussm@cityofnampa.us
2. Source of water supply Groundwater which is a tributary of N/A
3. Location of point of diversion is Township 03N Range 01W Sec. 7, in the SE $\frac{1}{4}$,
SW $\frac{1}{4}$, Govt. Lot B.M., Canyon County;
additional points of diversion if any: N/A
4. Water will be used for the following purposes:

Amount <u>4.5 cfs</u> (cfs or acre-feet per year)	for <u>Municipal</u> purposes from <u>01/01</u> to <u>12/31</u> (both dates inclusive)
Amount _____ (cfs or acre-feet per year)	for _____ purposes from _____ to _____ (both dates inclusive)
Amount _____ (cfs or acre-feet per year)	for _____ purposes from _____ to _____ (both dates inclusive)
Amount _____ (cfs or acre-feet per year)	for _____ purposes from _____ to _____ (both dates inclusive)
Amount _____ (cfs or acre-feet per year)	for _____ purposes from _____ to _____ (both dates inclusive)
Amount _____ (cfs or acre-feet per year)	for _____ purposes from _____ to _____ (both dates inclusive)
5. Total quantity to be appropriated is (a) 4.5 and/or (b) 3,258
cubic feet per second acre feet per year
6. Proposed diverting works:
 - a. Describe type and size of devices used to divert water from the source Vertical line shaft pump (pump to be installed will be approximately 450 HP with 14-inch diameter bowls).
 - b. Height of storage dam N/A feet; active reservoir capacity N/A acre-feet;
total reservoir capacity N/A acre-feet
 - c. Constructed well diameter is 16 inches; depth of well is 520 feet
 - d. Is ground water with a temperature of greater than 85°F being sought? No
 - e. If well is already drilled, when? December – March 2008; Drilling firm Riverside, Inc. (Parma, ID);
Well was drilled for (well owner) City of Nampa; Drilling Permit No. 903208-850195
7. Time required for completion of works and application of water to proposed beneficial use is 2 years (minimum 1 year)
8. Description of proposed uses (if irrigation only, go to item 9):
 - a. Hydropower; show total feet of head and proposed capacity in kW. N/A
 - b. Stockwatering; list number and kind of livestock. N/A
 - c. Municipal; show name of municipality. City of Nampa
 - d. Domestic; show number of households. N/A
 - e. Other; describe fully. N/A

9. Description of place of use:

- a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
For municipal purposes within the City of Nampa service area (please see attached service area map)																			

Total number of acres to be irrigated: N/A

10. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping? Water Right Number 63-12543 – a water right license for 4.0 cfs for municipal use within the City of Nampa's service area

11. a. Who owns the property at the point of diversion? City of Nampa
- b. Who owns the land to be irrigated or place of use? City of Nampa
- c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: N/A

12. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary. The City of Nampa requests an additional 4.5 cfs water right permit for municipal use within their service area (please see attached service area map). The City recently installed a replacement well on site near the Idaho Center in Nampa (new well is referred to as "Well 16", and replaces City of Nampa "Well 13", which will be abandoned within the next 14 days (by March 28, 2008). The City currently has a water right license for the replacement well (4.0 cfs for municipal use within the City of Nampa). Based on the results of recent pump development and testing activities, Well 16 can maintain a diversion rate of approximately 8.5 cfs. Therefore, the City of Nampa requests an additional 4.5 cfs in this application for permit to meet its municipal supply needs.

13. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½"x11" map clearly identifying the proposed point of diversion, place of use, section #, township & range. (A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred.)

BE IT KNOWN that the undersigned hereby makes this application for permit to appropriate the public waters of the State of Idaho as herein set forth.

RE: License No. 63-12543

Issuance of License

Dear Water Right Holder:

The Department of Water Resources has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review the conditions of approval and remarks listed on your license.

The license is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-287-4947.

Sincerely,

Shelley W. Keen, Manager
Water Right Permits Section

Department of Water Resources
Water Right License

WATER RIGHT NO. 63-12543

Priority: July 30, 1999

Maximum Diversion Rate: 4.00 CFS

It is hereby certified that CITY OF NAMPA
411 3RD ST S

NAMPA ID 83651 has complied with the terms and
conditions of the permit, issued pursuant to Application for Permit dated July 30, 1999; and has
submitted Proof of Beneficial Use on September 24, 2001. An examination indicates that the works
have a diversion capacity of 4.07 cfs of water from:

SOURCE

GROUND WATER

and a water right has been established as follows:

BENEFICIAL USE

MUNICIPAL

PERIOD OF USE

01/01 to 12/31

DIVERSION RATE

4.00 CFS

LOCATION OF POINT(S) OF DIVERSION:

GROUND WATER SE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 7, Twp 03N, Rge 01W, B.M. CANYON County

CONDITIONS OF APPROVAL

1. After specific notification by the department, the right holder shall install a suitable measuring device or shall enter into an agreement with the department to determine the amount of water diverted from power records and shall annually report the information to the department.
2. The right holder shall not provide water diverted under this right for the irrigation of land having appurtenant surface water rights as a primary source of irrigation water except when the surface water rights are not available for use. This condition applies to all land with appurtenant surface water rights, including land converted from irrigated agricultural use to other land uses but still requiring water to irrigate lawns and landscaping.
3. When ordered by the Director, the right holder shall provide mitigation acceptable to the Director to offset depletion of lower Snake River flows needed for migrating anadromous fish. The amount of water required for mitigation, which is to be released into the Snake River or a tributary for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this right. Any order of the Director issued in accordance with this paragraph shall be in conformance with applicable rules allowing the right holder due process as the need for mitigation and the amount of mitigation are determined.
4. Place of use is within the service area of the City of Nampa municipal water supply system as provided for under Idaho Law.
5. A map depicting the place of use boundary for this water right at the time of this approval is attached to this document for illustration purposes.
6. Water bearing zone to be appropriated is from 300 to 510 feet.

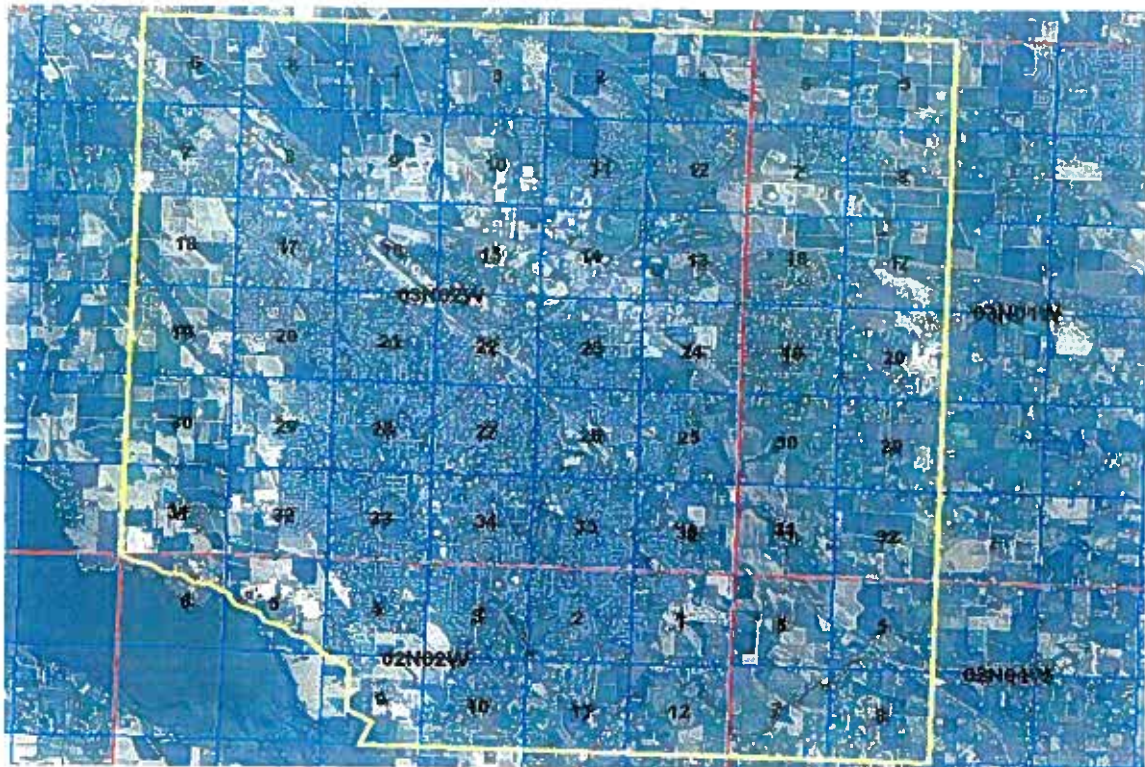

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. The water right confirmed by this license is subject to all prior water rights and shall be used in accordance with Idaho law and applicable rules of the Department of Water Resources.

Signed and sealed this 15th day of February, 2008.

Applications for Permit #63-32835 & #63-33022-City of Nampa

Dear Ms. Brown:

This letter is a follow-up to our office conversation last week concerning the City of Nampa applications for permit. Our office has initiated processing both applications together to avoid duplication of resources. Our initial review of the applications reveals the intent of the new water allocations needs to be clarified. If the City's intent is to only add additional points of diversion (wells) to their system and there is no need of additional water, a transfer should be filed to add additional wells to existing water rights. However, if additional water is needed by the City now or reasonably in the future, then applications for permit are proper.

Pursuant to Idaho Code (IC) §42-202 & 42-202B: Please provide the following:

-Please provide a statement regarding the intent of the applications.

Are the applications for current or future anticipated water needs by the City?

-Provide growth and planning documentation/pumping data showing the City's intent-present demand, future anticipated needs, or a combination. Attached is a summary of the City's current water rights and permits for reference.

-Provide a current City service area map.

The map may also include anticipated planned boundaries for service.

Should you have questions, please contact me at the Western Regional Office, phone 334-2190.

Sincerely,

John Westra, Manager
Western Region

**WATER RESOURCES
WESTERN REGION**

Dear John:

Please find the attached Application for Permit to appropriate the public waters of the State of Idaho. The City of Nampa is applying for an additional 4.5 cfs (3,258 acre feet per year) for a new water supply well at the Idaho Center on Franklin Boulevard. The City refers to this new well as "Well 16", and Well 16 is a replacement well for "Well 13", a well that will be abandoned in the next few days. The City has a water right license for 4.0 cfs for municipal use for this site (License 63-12543). Based on recent pump testing performed at Well 16, the new well can maintain a diversion rate of approximately 8.5 cfs, leading to the City's new permit application to meet the City's increasing potable water demand with water from Well 16.

The City of Nampa is currently in need of additional potable water supply, based on existing demand for potable water within the City's service area. The City's potable water demand is increasing due to growth as well. The City, therefore, would appreciate anything IDWR can do to review this permit application as soon as possible.

Please contact me at 208-383-6108, or via email at Kevin.Boggs@ch2m.com should you have any questions or concerns.

Thank you,

Kevin Boggs
