RE: Harris Ranch – Amended Application for Transfer

Dear Mr. Lester,

Enclosed, please find an amended Application for Transfer in the name of Harris Family Limited Partnership that seeks to move the point of diversion for water rights 63-2973 and 63-7103 from the Golden Dawn well to the proposed ponds and two wells.

This is an amendment to the application submitted on January 29, 2008. This amendment seeks to have the points of diversion include three excavated ponds and two wells. The need for the second well is not yet confirmed, but is included with this amendment in case it is needed. The need will depend on the ability of the shallow ground water to flow into the irrigation pond and the slope stability of the pond.

The amended application and attachments are intended to replace the previous submittal except for the lengthy Strata report that was included as an appendix.

If you have any questions or need additional information, please feel free to contact me.

Regards,

Steven R. Hannula

encl: amended Application for Transfer and Attachment 1 w/out Strata report,
