ACTION OF THE DEPARTMENT OF WATER RESOURCES

I, DAVID R. TUTHILL, JR., of the Department of Water Resources hereby approve the
above Application for Amendment for Permit No. 37-07857 with the following:

CONDITIONS OF APPROVAL

1. This right does not grant any right-of-way or easement across the land of another.
2. The rights for the use of water confirmed in this license shall be junior and subordinate to all rights for the use of water other than hydropower, within the State of Idaho that are initiated later in time than the priority of this right and shall not give rise to any right or claim against any future rights for the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this right.
3. This right does not constitute Idaho Public Utilities Commission or Federal Energy Regulatory Commission approval that may be required.
4. Use of water under this right shall be non-consumptive.
5. The diversion and use of water for hydropower purposes under this license is subject to review by the Director on or after May 1, 2018. Upon appropriate findings relative to the interest of the public, the Director may cancel all or any part of the use authorized herein and may revise, delete or add conditions under which the right may be exercised.
6. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 37.
7. The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion(s).
8. The right holder shall operate in run-of-river mode only and shall act to minimize the fluctuation of streamflow immediately downstream of the location where water is discharged into the Malad River.

Witness my hand this 6th day of February, 2009.

DAVID R. TUTHILL, JR.
Director
