Subject: RE: Application for Transfer No. 74856

Attachments: Recommendation of WaterMaster; Application 74856.doc

Kevin:

A copy of the above referenced application is enclosed. Please review the application, then complete the enclosed recommendation form and return it to this office within 21 days of the date of this letter.

IDWR's regional offices can finish reviewing an unprotested application as soon as the protest period has past. Your prompt response to this request will ensure that your recommendation can be considered during regional review. If IDWR has not received your written recommendation within 21 days from the date of this letter, IDWR will presume that you do not oppose approval of the application and that you have no comments for IDWR to consider.

This transfer is essentially adding two additional groundwater points of diversion and creating a PPU. There are some interesting conditions associated with 37-466 which may be of interest to you. Please give me a call or let me know if you have any questions. I've given the file to Mary and she should have it scanned within a couple of days if you want to look at the scanned application.
