RE: Water Right Permit 63-11816

Dear Ms. Minicucci:

I received your 10-23-2008 letter regarding the required study of recharge effectiveness associated with water right Permit 63-11816. You have identified steps taken to record data, and anticipate providing a comprehensive report to us by 01-01-2009. This report should include the method and amount of water recharged from the surface water source, and an accountable method of the effectiveness as recharge to ground water.

As I noted in my previous letter, this right cannot be licensed unless the conditions of the permit are have been met. The Department will hold further processing of the Permit to allow submittal of the required information. After 01-01-2009, if adequate information is not received, the Department will issue a preliminary order to void the permit.

If you require additional information regarding this matter, please call me directly at (208) 287-4951, e-mail me at pam.skaggs@idwr.idaho.gov or contact me by mail, and I will be happy to assist you.

Sincerely,

Pamela S. Skaggs
Water Rights Supervisor
