RE: Application for Transfer

Dear TJ:

The Department of Water Resources has received your application for transfer. Preliminary review of the application indicates that it is incomplete and cannot be accepted for processing. We are returning your application to allow you to complete the necessary items. The required information is described below.

The Point of Diversion and Place of Use/Acres are listed in the wrong Section, please check the legal descriptions for both of these.

This transfer should be to replace a point of diversion, not to add a point of diversion. After talking to the previous owner, they said that the Brown's would no longer have access to the original wells and needed to use their own well.

Also, there is a third water right involved 35-13508, SRBA recommendation that should be included in this transfer. Because this right was not included, the cfs needs to be changed to reflect the addition of this right.

The Fee was not provided.

Please feel free to contact this office if you have any questions.

Sincerely,

Dave Carlson
Water Resources Supervisor
