CONDITIONS OF APPROVAL

1. Industrial use is for power plant cooling and operation. Domestic use is for the office building.
2. The rate of diversion of water for irrigation under this right and all other water rights on the same land shall not exceed 0.03 cubic feet per second for each acre of land.
3. After specific notification by the department, the right holder shall install a suitable measuring device or shall enter into an agreement with the department to determine the amount of water diverted from power records and shall annually report the information to the department.
4. The issuance of this right does not grant any right-of-way or easement across the land of another.
5. Should a transfer be filed to change the nature of use for this right, the total annual volume shall be limited to the amount that historically has been put to beneficial use.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. The water right confirmed by this license is subject to all prior water rights and shall be used in accordance with Idaho law and applicable rules of the Department of Water Resources.

Signed and sealed this 2nd day of February, 2009.
