Subject: Boise Parks and Rec. Director's letter to you, transfer application

Dave:

James Hall, Director of Boise Parks & Rec. sent you a letter dated 1/21 regarding pending Transfer 69327 for right 63-9276 - move municipal right from low temp geothermal Gamble Well to cold water Warm Springs Golf Course Well.

This one has been kicking around a long time, previously delayed by SRBA & other issues. The application has been thoroughly discussed between Western & SO staff over time.

I'm meeting with Jeff & Shelley tomorrow to resolve the application. There does not appear to be any recourse except to reject or deny it based on the issues.

I am sending you this email in hope it might save you some time - so you know staff is close to wrapping it up. I imagine you would want to be briefed on it before any decision is issued. I will let John Westra know about this latest wrinkle, also.

Steve
