RE: T. #74650 & T#74651.

* Spoke with Roger Warner about BOR & BLM
* objections. There is a letter in the file from BOR
* stating it does not oppose processing of the
application for transfer, even though the new
P.O.U. still contains BOR administered lands.

Schwendiman & BOR have signed a new lease
agreement allowing continued farming & irrigation
of specific this property. Still in question is
the status of the BLM objection though Rocky
Mountain contends the shape file was produced
by BLM. To remove any concern about the
BLM I asked Rocky Mountain to request an
acknowledgement from BLM concerning the
transfer application & the status of the
BLM objection.

Ernie.
