Re: Proof Received Date

The permit holder originally filed proof and paid the filing fee on Dec. 12, 2008. The check for the filing fee was returned because the account had been closed. A second check to replace the first one was received and receipted on Jan. 23, 2009. The proof was acceptable when the second check was received. With this entry, the database reflects the day the second check was receipted. The proof deadline was not past, therefore the permit priority was not affected.
