**ORDER WAIVING
PERMIT CONDITIONS**

The Department of Water Resources (department) has issued the above captioned water right permit with a condition of approval requiring the permit holder to install and maintain a measuring device as part of the diverting works; and

On September 3, 2008, the permit holder filed a letter requesting the department waive the measuring device requirement of the permit. The permit holder provided a letter from the Watermaster of Water District No. 65, that confirmed the "irrigation system ... meets [his] requirements for ... regulating the amount of water being used based on the horsepower and number of sprinklers used;" and

The department has determined that the measuring device is not presently needed to measure the water in question.

IT IS HEREBY ORDERED that the condition of approval requiring the right holder to install and maintain a measuring device for the above captioned permit is **WAIVED**. The department retains jurisdiction to reinstate the condition in the future upon a finding of need by the department.

Dated this 8th of January, 2009.
