PROOF ACKNOWLEDGMENT LETTER

Re: Permit No. 65-13392

Dear Permit Holder:

The department acknowledges receipt of the Proof of Beneficial Use form ("proof") and the license examination fee for the above-referenced water right permit. Enclosed is an order that reinstates this permit, since proof and the license examination fee were submitted after the proof deadline. Please note that the priority date for the permit has been advanced to July 12, 1992, as provided in Section 42-218a(2), Idaho Code.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water according to the conditions of the permit.

During my review of the proof you filed, I noticed that the measuring device condition has not been completed. According to the watermaster for Water District 65 a measuring device was required at the time of your application. If you disagree with this condition, you are required to submit a written request to the Department for the condition to be waived, and you must contact the watermaster and ask him to provide written confirmation of his support to the Department. However, if the watermaster does not agree to waive the requirement, he may have some suggestions for the kind of device you should install. Because this is a condition of the permit, I suggest that this requirement be resolved or installed before the field examination is conducted.

Be advised that Section 42-248, Idaho Code, requires you as the owner of water rights to maintain current ownership and address records on file with the department. For your information, forms to file a change of ownership of a water right, or a change in the address of the water right owner are available from any department office or from the department's website at: www.idwr.idaho.gov

If you have any questions, please contact either me at (208)287-4942, or the **Western** Regional Office of the department in Boise at (208) 334-2190.

Sincerely,
