RE: PERMIT NO. 25-7662

Dear Permit Holder:

Enclosed is the original Proof of Beneficial Use (proof) statement you submitted in connection with the above referenced water right permit. Before the department can accept your proof, it must be accompanied by the appropriate license examination fee. According to the permit issued on August 20, 1998, the maximum rate of diversion is 0.57 cfs. Also, during my review of your proof I found that questions 5, 6 & 7 were left blank. Those blanks must be completed in order for the department to accept proof. I am enclosing a copy of your permit for your information in completing this form.

The water right permit issued by the Department of Water Resources (department) is for the allocation or use of the water, not the health requirements being overseen by the Department of Health and Welfare for subdivisions. Additionally, the department requires water lines be stubbed to the lots to be adequate development for proof of beneficial use. If only 6 homes are built on the lots, the remaining subdivision, up to the maximum of 50 homes as permitted should be completed for filing proof, or a Request for Extension of Time must be filed with the department.

Additionally, your Proof of Beneficial Use was received after the September 1, 2003, deadline, therefore, this permit has lapsed and is of no force nor effect. It is important that you return the enclosed proof form completed with the missing information, or a completed Request for Extension of Time, along with the appropriate fee to the nearest office of IDWR immediately, to avoid further loss of priority days.

If you have any questions regarding this matter, please contact me at (208) 327-7953.

Sincerely,

Deborah J. Gibson
