Re: Application For Permit to Appropriate the Public Waters of the State of Idaho
#96-9171.

Dear Mr. and Mrs. Wood:

In 2004 you made an application to appropriate 1.2 cfs of water from Colburn Creek, which is tributary to the Pack River, for the irrigation of 93 acres. On September 15, 2004 Northern's Regional Manager Robert Haynes sent you a letter, copy of which is attached, explaining concerns with your application as it pertains to a minimum stream flow designation on the Pack River. Stream flow information was included in the letter for your convenience.

Mr. Haynes requested you review the records and asked if you were still interested in pursuing a permit. Considerable time has lapsed since the letter was sent and to date, the department has not heard from you. Would you please respond within the next 30 days? If the department has not heard from you by the end of the 30 day period, it will assume you are no longer interested and will void the application.

If you have any questions, feel free to contact either myself or Mr. Haynes at this office.

Thank you.

Sincerely,

Keith E. Franklin
Senior Water Resources Agent
Enclosure

on Nov. 6, 2008, Mr. Wood
called and said integrated
wanted to pursue the
permit. S.E.
