Re: Application For Permit to Appropriate the Public Waters of the State of Idaho

Dear Mr. Dahlman:

The Idaho Department of Water Resources is in the final stages of processing your application. The information you submitted in response to my letter dated June 9, 2008, included a copy of your well report. The well you have was constructed as a single family domestic, which means the drilling purchased a \$75.00 permit to actually put the well in the ground. If wells are used for other than a single family residence, such as the irrigation of land over ½ acre the well permitting fee requirement is \$200.00. The well you have will require an upgrade fee of \$125.00, made payable to "IDWR". The department will proceed with the processing of your application, but the upgrade fee will be needed before a permit can be issued.

When sending in the upgrade fee, please make reference to application #95-9495 and if you have any questions, feel free to contact me at this office.

Sincerely,

Keith E. Franklin
Senior Water Resources Agent
