Subject: Extension of time on Permit #94-7425.

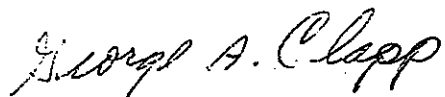

To whom it may concern:

I am submitting this request for an extension of time on permit #94-7425. We have installed pipe part way from our intake to the Apartment and trying to get donations for the Filter system. We have almost collected the amount needed.

This permit was needed because our old water system had to be relocated . Because the old system was ruined by the Idaho Department of Transportation. Due to the amount of salt that is now used on Lookout Pass I-90 it ruined our old system.

Any consideration will be greatly appreciated.

Thank You
