Subject: Lavar Thornton Transfer Application

Contacts: King, Scott

Scott:

I received your client's transfer application regarding 4 rights in Ada County for a proposed permissible place of use. As you noted, SRBA issues have apparently been adequately resolved. Processing might be expected on that basis under the department's previous form letter in that regard.

However, transfer processing essentially remains in limbo for the next few months as this office focuses its available resources on the SRBA. The application will be held and processed at the first available chance. Sorry about the inconvenience this undoubtedly causes.

Please let me know if you need more information.

Steve
