Subject: Ownership change

Below is a link to a form for assignment of permit. The water right you submitted an ownership change for is still in the permit stage and only requires this form be filled out, signed by the permit holder and notarized. I will apply the fee you sent for the ownership change to the assignment as the fees are the same. If you have any questions, please call our office at 208-334-2190.

Thank you.
