RE: Beneficial Use Field Exam & Processing of Permit Amendment App

Robert P. Walker was the consultant for Centers Construction LLC (permit owner). Lori Graves of SPF Water Engineering LLC informed me, via phone conversation 10/3/08, that SPF is now the consultant for Centers Construction LLC.

Proof of Beneficial Use was received, with the \$100.00 exam fee, on 9/29/2003. An Application for Amendment of a Permit was received, with a \$50.00 fee, on 12/28/06. Lori Graves indicated SPF wishes/intends to conduct the field exam for this permit in a timely manner. Once the exam is completed, the Department can process the Permit Amendment App as a License Amendment and apply the \$50.00 fee previously submitted for that process.
