

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

1. Name of Applicant Jack Wolford Phone 208-628-3488
Mailing address Hc 2 Box 700 Pollock ID. 83547
2. Source of water supply unnamed creek which is a tributary of NO Tributary of Little Salmon R.
3. Location of point of diversion is Township 22 N Range 1 E Sec. 16 in the NW ^{1/4},
NE ^{1/4}, SE ^{1/4}, Govt. Lot _____, B.M., Adams ^{T.W.} County; Adams
additional points of diversion if any: Additional Point of Diversion (2) Same Location
4. Water will be used for the following purposes: Discharge ^{T.W.} NE NESE Sec 16 22N 1E T.W. 11-7-00
Amount .12 for Irrigation purposes from Apr 1 to 10-31 (both dates inclusive)
(cfs or acre-feet per annum)
Amount .02 for Stock Water purposes from Jan 1 to Dec 31 (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
5. Total quantity to be appropriated is (a) .14 and/or (b) _____
cubic feet per second acre feet per annum
6. Proposed diverting works: Pipe in stream
a. Describe type and size of devices used to divert water from the source up to 1 1/2" poly pipe
placed in stream
b. Height of storage dam N/A feet; active reservoir capacity _____ acre-feet;
total reservoir capacity _____ acre-feet
c. Proposed well diameter is N/A inches; proposed depth of well is _____ feet
d. Is ground water with a temperature of greater than 85°F being sought? NO
e. If well is already drilled, when? N/A; Drilling firm _____;
Well was drilled for (well owner) _____; Drilling Permit No. _____
7. Time required for completion of works and application of water to proposed beneficial use is 1 years (minimum 1 year)
8. Description of proposed uses (if irrigation only, go to item 9):
a. Hydropower; show total feet of head and proposed capacity in kW.
(b) Stockwatering; list number and kind of livestock. 6 Horses and 14 cows
c. Municipal; show name of municipality.
d. Domestic; show number of households.
e. Other; describe fully.

RECEIVED

JUN 29 2007

WATER RESOURCES
WESTERN REGION

Description of place of use:

a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.

b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

MEMORANDUM

To: File – 67-14950, 78-12318, 78-12336 & 78-12337
From: Denise Buffington
Date: January 7, 2009
Subj: Legal Notices

On December 23, 2008, the legal notices for the above referenced water rights were submitted to the Adams County Record for publication. The ads were scheduled to run on January 1st & 8th 2009. On December 24th, I received an e-mail from Gamaliel Masters at the newspaper stating that they were going to publish one day early due to the New Year holiday; and she asked if they could publish the ads on December 31st 2008 & January 8th 2009.

I replied to her and let her know that those dates would not work for us, because of our statutes, etc. I also let her know that I would just resubmit the information at a later date, in order for the ads to be published on January 15th & 22nd, 2009.

These legal notices will be regenerated today, January 7th, and resubmitted to the Adams County Record for publication.

NOTE: The first legal notices generated are in the files also, as reference only. They did not actually get published.

Buffington, Denise**From:** Gamaliel Masters [gamaliel@theadamscountyrecord.com]**Sent:** Tuesday, December 23, 2008 10:58 PM**To:** Buffington, Denise**Subject:** Re: Legal Notices

Hi,

✓ We are printing a day early next week due to the New Year holiday, so the publication dates would actually be December 31, 2008 and January 8, 2009. Is that okay or do you need us to do it the 8th and the 15th?

Let me know,

Thanks,

 Gamaliel Masters

✓ Told Adams County to hold off and not run the ads on 12/31 & 1/8 (rather than 1/1 & 1/8.) I wasn't sure if it would be ok to run the ad a day early & there wasn't anyone in the office to check with - due to Christmas holiday. They'll be resubmitted to run on 1/15 & 1/22 2009.

Hi, Cherie.

The above application for permit needs parallel processing before we can advertise it so I have scanned it and attached a copy to this e-mail. We have received comments from IF&G and IDEQ. I have scanned those comments for your review. The applicant has responded to Rules 40.05c through 40.05g and I have also scanned and attached his response. The application is within the Salmon Clearwater area but does not fall within the Wilderness Area. Please review the attachments and comments I have placed in the data base. Let me know if I need to address anything else before we can advertise.

Thanks! Kay << File: App 78-12318.pdf >> << File: Comments 78-12318.pdf >>

RE: Water Right Application # 78-12318

Dear Ms. Walker:

We have been contacted by Jack Wolford on a new application for an irrigation water right on an unnamed tributary to the Little Salmon River (LSR). The proposed location is in Adams County Sec 16. T 22 N, R01E. The stated withdrawal amount was 0.02 cfs from 1/01 to 12/31; 0.12 cfs from 4/01 to 10/31 annually for stock water and irrigation, respectively.

The tributary is considered non fish bearing and thus there will not be a request for fish screening. We have no further comments.

If you have further questions or need further information please contact Dale Allen, Regional Fishery Manager in McCall at 208-0634-8137.

Sincerely,

Scott Reinecker
Regional Supervisor

Jack Wolford
HC 2, box 700
Pollock, ID 83547

Dear Mr. Wolford:

DEQ has received a copy of your application to the Idaho Department of Water Resources requesting approval to appropriate 0.14 cfs of water for irrigation and stock water, from April 1-October 31, and January 1 to December 31, respectively. The proposed withdrawal will be from an un-named tributary to the Little Salmon River, Idaho County. Assuming all federal, state and local permits have been obtained, regulations met, and reviews completed, we offer the following comments.

Idaho Water Quality Standards require existing aquatic life be protected and maintained when flows are equal to or greater than one cubic feet per second in intermittent streams. At no time should the withdrawal of 0.14 cfs be allowed to impair existing beneficial uses in the unnamed tributary to the Little Salmon River when stream flow is adequate to sustain existing aquatic life.

Thank you for the opportunity to comment on your application. If you have any questions regarding the Idaho Water Quality Standards or the conditions listed above, please call us at (208) 799-4370.

Sincerely,

Water Appropriation Rules 40.05.c through 40.05.g

c. The following information shall be submitted for applications to appropriate unappropriated water. . .

Information relative to the effect on existing water rights, Section 42-203A(5)(a), Idaho Code, shall be submitted as follows:

- i. For applications appropriating springs or surface streams with five (5) or fewer existing users, either the identification number, or the name and address of the user, and the location of the point of diversion and nature of use for each existing water right shall be submitted. *78-4022*
- ii. For applications appropriating groundwater, a plat shall be submitted locating the proposed well relative to all existing wells and springs and permitted wells within a one-half mile radius of the proposed well.
- iii. Information shall be submitted concerning any design, construction, or operation techniques which will be employed to eliminate or reduce the impact on other water rights:

d. Information relative to sufficiency of water supply, Section 42-203A(5)(b), Idaho Code, shall be submitted as follows:

- i. Information shall be submitted on the water requirements of the proposed project, including, but not limited to, the required diversion rate during the peak use period and the average use period, the volume to be diverted per year, the period of year that water is required, and the volume of water that will be consumptively used per year.
- ii. Information shall be submitted on the quantity of water available from the source applied for, including, but not limited to, information concerning flow rates for surface water sources available during periods of peak and average project water demand, information concerning the properties of the aquifers that water is to be taken from for groundwater sources, and information on other sources of supply that may be used to supplement the applied for water source. *See Application*

e. Information relative to good faith, delay, or speculative purposes of the applicant, Section 42-203A(5)(c), Idaho Code, shall be submitted as follows:

- i. The applicant shall submit copies of deeds, leases, easements or applications for rights-of-way from federal or state agencies documenting a possessory interest in the lands necessary for all project facilities and the place of use or if such interest can be obtained by eminent domain proceedings the applicant must show that appropriate actions are being taken to obtain the interest. Applicants for hydropower uses shall also submit information required to demonstrate compliance with Sections 42-205 and 42-206, Idaho Code. *WATER WILL BE PUT TO BENEFICIAL USE BEGINNING SPRING 2009.*
- ii. The applicant shall submit copies of applications for other needed permits, licenses and approvals, and must keep the department apprised of the status of the applications and any subsequent approvals or denials. *WATER IS ON APPLICANT'S PROPERTY*

f. Information Relative to Financial Resources¹, Section 42-203A(5)(d), Idaho Code, shall be submitted as follows:

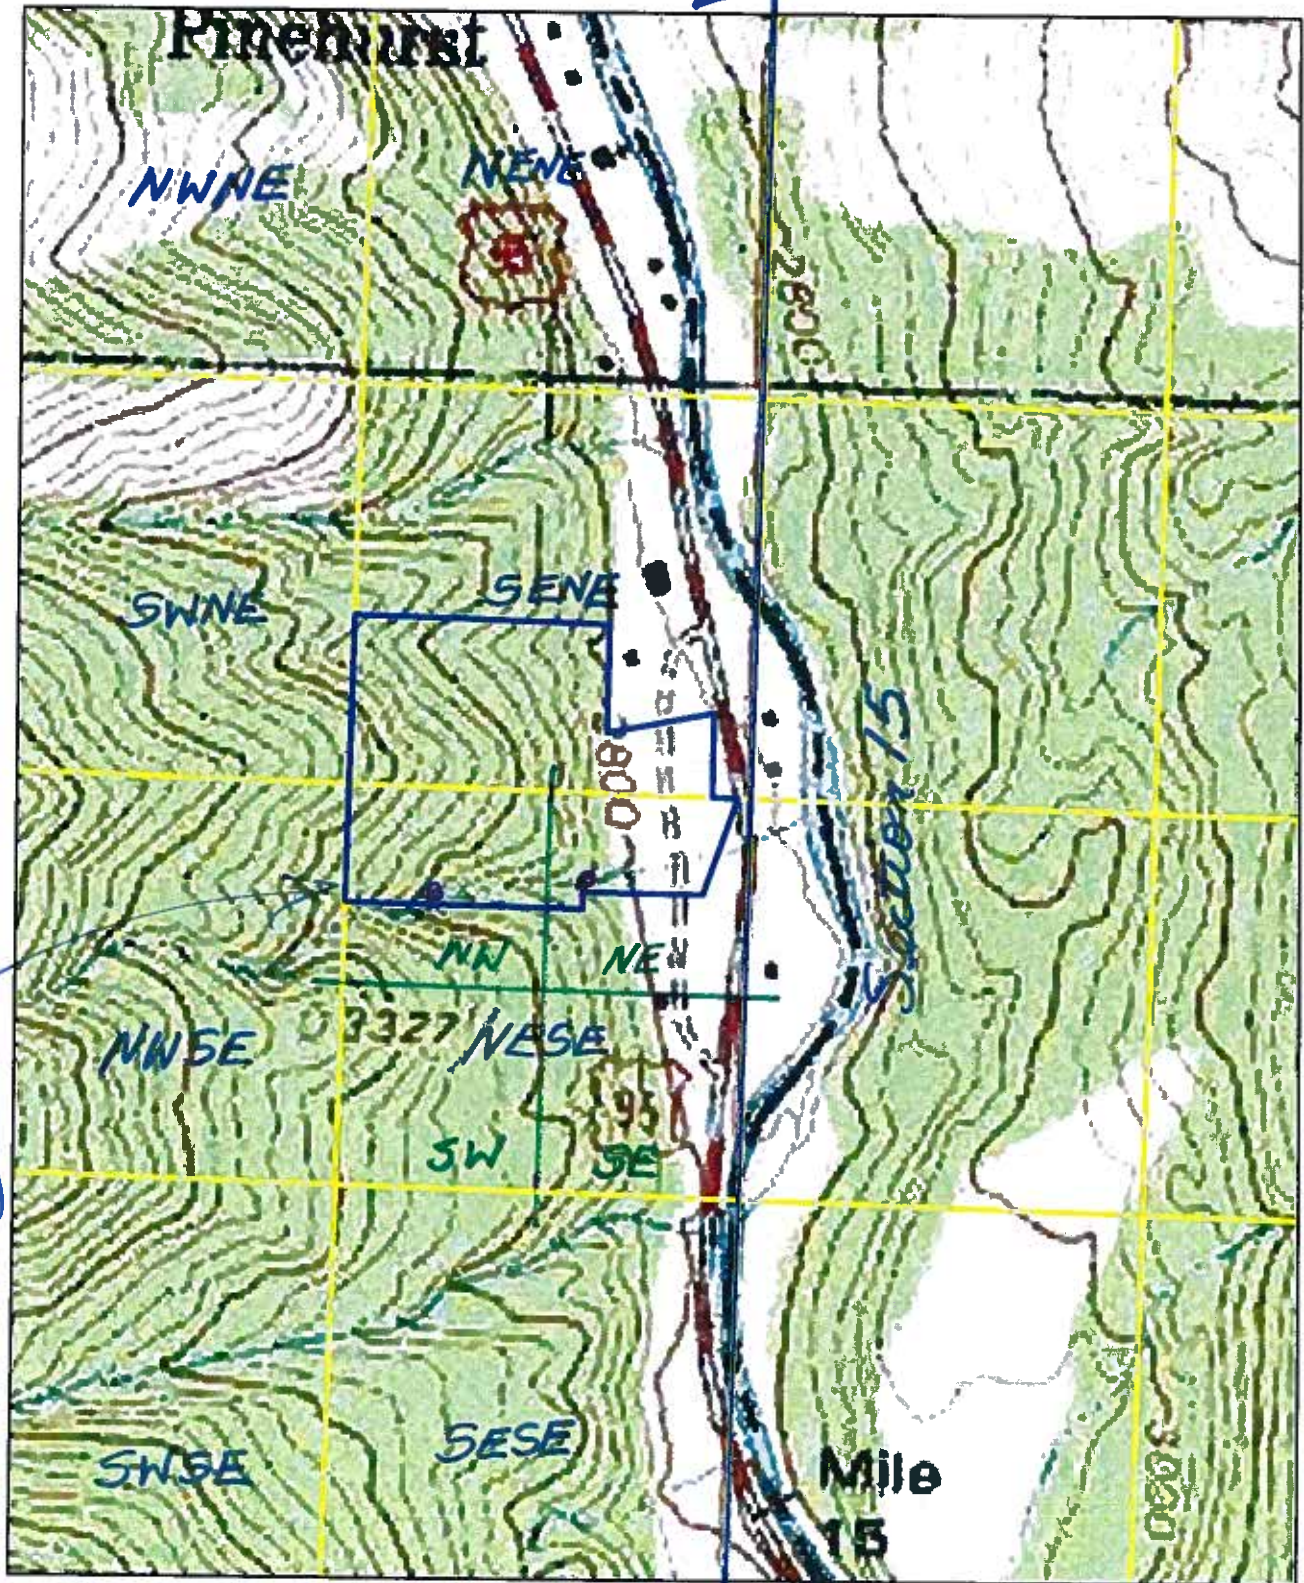

- i. The applicant shall submit a current financial statement certified to show the accuracy of the information contained therein, or a financial commitment letter along with the financial statement of the lender or other evidence to show that it is reasonably probable that financing will be available to appropriate the water and apply it to the beneficial use proposed.
- ii. The applicant shall submit plans and specifications along with estimated construction costs for the project works. The plans shall be definite enough to allow for determination of project impacts and implications. *INSTALLATION OF 40 TO 400' OF 12" POLY PIPE ON SURFACE. COSTS LESS THAN \$500*

g. Information Relative to Conflict with the Local Public Interest, Section 42-203A(5)(e), Idaho Code, shall be submitted as follows:

The applicant shall seek comment and shall submit all letters of comment on the effects of the construction and operation of the proposed project from the governing body of the city and/or county and tribal reservation within which the point of diversion and place of use are located, the Idaho Department of Fish and Game, the Idaho Department of Environmental Quality, and any irrigation district or canal company within which the proposed project is located and from other entities as determined by the director. *FILE DEC*

F+G + DEQ

¹ Note limited response acceptable for projects that will cost less than \$5,000 – see page 1.

Re: Application for Permit 78-12318

Dear Applicant:

The Idaho Department of Water Resources (IDWR) is reviewing your application for a new water permit from a source within the Salmon River basin. Additional information is needed to fully evaluate your proposal. IDWR is working with other agencies of the State of Idaho regarding projects requiring new water right approval within the Salmon River basin.

Please see the enclosed attachment about additional information for your application. Page 1 of the attachment outlines the legal basis and reasons for this request. That page also provides contact information for the other state agencies that will be involved in this process. Page 2 of the attachment lists the Water Appropriations rules about this request for more information. Please be sure to state why you think that any of the items on page 2 do not apply to your application.

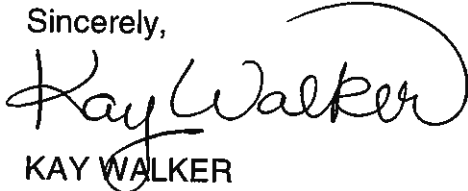

✓ We also note that you were uncertain about the location of your points of diversion. In review of the map attached to your application the two points of diversion are located in the NWNESE and the NENESE of Section 16, Twp. 22N, Rge. 1E, Adams County. We have enclosed a new map for you to place your proposed points of diversion. This map also has your tax lot outlined in blue. Please mark your proposed points of diversion on this map and correct the legal descriptions on the enclosed copy of your application. Also, you will need to date and initial each correction to the application form before we can accept the corrections. When we receive the corrected form it will become an "amended" application and we will process it with the corrected information.

Please note the deadline for your written reply to this request is January 2, 2009. Water Appropriation Rule 40.01.d allows an applicant to request that IDWR interrupt

processing an application for up to six months if more time is needed by the applicant. If you request more time, be sure to include documentation verifying that you have initiated your request for comments from other state agencies listed in the attached handout. IDWR can approve the request if it (a) will not injure others, (b) is consistent with the public interest, and (c) is not for speculative purposes. Applications are normally voided if applicants do not provide timely written responses.

IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please contact me at 208-334-2190 if you have any questions. Thank you for your attention to this matter.

Sincerely,

A handwritten signature in black ink that reads "Kay Walker". The signature is fluid and cursive, with a large loop at the end of the last name.

KAY WALKER
Sr. Water Resource Agent
