I called the attorney 9/9/08 and left message on his machine that this requires an Assignment of Permit (since this is still in Permit state) rather than the Notice of Change in Water Right Ownership (for Licenses only.)

I receipted it as if it was an Assignment of Permit.

After looking at this a little more – and perusing the documents attached – it appears that the property is being divided among 6 families – and Tim Lee is going to see that each of the others receives the water needed – apparently the source is on the piece of property he inherited.

Will one of you please review this to clarify – and let me know if something else needs to be done after we receive an Assignment of Permit, i.e. additional money because of the split, etc.

Thanks,
