DEPARTMENT OF  
WATER RESOURCES

Good afternoon, Emalee,

Yesterday I sent down an Assignment of permit for 84-12143 from Robert Lee to Timothy Lee. Attached is a copy of a memo and a letter from Eric K Peterson of Clements, Brown & McNichols, attorneys in Lewiston, regarding this matter. This originally came with a Notice of Change of Ownership and I discovered it was still in permit stage so I notified attorney an assignment would be required. That is what was sent to SO yesterday.

I knew there was additional information regarding that assignment but no one could recall having it as of yesterday. It turned up on Keith's desk today. The attachment is part of that information – just to notify you that more is coming, including the Estate Resolution Agreement of 19 pages including maps – Instrument No. 458021, Idaho County, also filed with the Lewis County District Court Oct.29, 2007. Additionally there is a Personal Representative's Quitclaim Deed dated October 10, 2007 – Instrument No. 448029 in the packet coming your way.

My memo sets forth some concerns and may not need to be kept with the file unless you determine it should be. My memo questions if the single assignment to Timothy D Lee is sufficient, because the Estate Resolution Agreement seems to have divided the property between 6 brothers and sisters. Timothy Lee is apparently guaranteeing to supply water to each of the other persons involved.
