Julie:

I will consider this e-mail a response to the order.
Let's extend the deadline to November 15th by this e-mail.

If this is acceptable, please reply

Congratulations, hope things are going well in your new firm
John

John,

I represent tumbleweed development, the applicant on the above referenced transfer. They asked me to respond to your request for information, and I have been slow in doing so as the file was not transferred with me when I left White Peterson. The first two requests did not come to me, and I wonder if there was some confusion due to the fact that both me and the other attorney who helped me with this, are no longer with the white Peterson firm. My client did forward me the last request made in September.

In any event, I received today a copy of your October 23, 2008 letter enclosing a preliminary order. I will be reviewing the file and should be able to get the information requested in the time stated as my clients do not want the transfer dismissed. However, I am buried this week, and if possible, would appreciate until mid-November? In honesty, I haven't even opened the rule book to see if there is a more appropriate way to request the extension – I just wanted to get something in front of you quickly so you know someone is working on it.

please let me know if the extension is possible, or if you want me to act like a real lawyer and look at the rules!

Thanks John,

Julie Klein Fischer
