2nd Request

RE: Water Right No. 86-10605

Dear Interested Party:

Thank you for the submission of the fees required for the Notice of Change in Water Right Ownership. Upon further review of your notice I realized that further information is required before we can process the change.

The water right is located in Lot 1 of Section 13, T37N, R2W (which appears to belong to Colbaugh Cattle Co according to 2004 tax lot info). The description of the property on the warranty deed does not match the water right. The warranty deed indicates that the property is located in Lot 5 of Sec. 13 and Lot 1 of Sec. 18, T37N R1W. I have enclosed a map which indicates the location of the water right and the outline of the property as indicated on the warranty deed.

- * Please submit a copy of the deed which conveyed Lot 1 of Sec. 13, T37N, R2W to Colbaugh Cattle Co so that the change in ownership can be accomplished. Because the Department cannot process the ownership change without proper documentation, we will hold any action on your notice pending receipt of the necessary information. If we do not receive the necessary information within 30 days we will return your notice and all attachments and your notice will not be processed. If you need additional time, please contact me.

I did attempt to locate another water right associated with the property as indicated on the warranty deed and did not find a match.

You also have the following options:

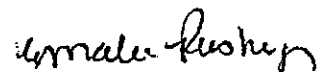

1. New Appropriation – an application for permit filed with the Department to develop a new water right. If a permit is approved, the priority date is the date that the application was filed. Some areas of the state are closed to new development. Please note that a water right permit is not required for certain domestic uses from a ground water source.

- 8
- 8
2. Water Right Transfer – an application filed with the Department to change an existing water right. If you choose to alter any element (point of diversion, place of use etc.) of Water Right 86-10605, you will need to submit an Application for Transfer. The ownership change can be accomplished through this process also.

The forms to accomplish the above listed options are available from any department office, or at the department's website at: www.idwr.idaho.gov.

Please feel free to contact the Department if you have any questions.

Sincerely,

Emalee Rushing, Office Services Supervisor
