Re: Change of Ownership for Partially Decreed Water Right 67-14144

On February 21, 2007, we received a change of ownership request for 67-2269E to remove Billy Joe Boaz as a current owner on the water right. Adjudication processed that request, but for some reason, when checking for other water rights, missed that 67-14144 was applicable the property too.

I received a call from the claimant of 67-14144, Luanne B Boaz on 11-3-08. She just received her partial decree for 67-14144 and, among other things, wanted to know why Billy Joe Boaz was still listed as current owner. I explained that we must have missed it.

- 1) Now that 67-14144 is partially decreed, there should be a \$25 filing fee, but since the change of ownership request was submitted prior to the water right being partially decreed, the filing fee can be waived.
- 2) I know that the change of ownership form itself isn't signed. But since we do have Luanne's signature on the quitclaim deed, Adjudication was able to process the change on 67-2269E.
 - a. If you feel that a signature on the form itself is necessary, I can e-mail Luanne and get a new form, but with a new form, I feared it would be confused with a new request and we would accidentally charge a \$25 processing fee. Let me know if this is an issue.
