

MEMORANDUM

Date: December 16, 2008
To: Water Right File, 75-14277
From: scox
Re: Evaluation Memorandum

The potential to reduce the quantity of water under existing water rights: This application is for irrigation for .04 cfs for 2 acres from waste water from the waste of Arrowhead Water District.

The sufficiency of the water supply for the proposed appropriation: The applicant will only use the water when it is available when the Arrowhead Water District tanks overflow.

The good faith nature of the application: This water will only be used occasionally as available.

The adequacy of the financial resources of the applicant: The cost of this project is less than \$500.00.

The local public interest in the public water resource:

Comment letter from IDF&G states that Mr. Jones wants this .04 cfs for the 2 acres and due to the quantity of water is limited and the source is waste water, they have no concerns. IDEQ does not have any concerns or objections to this diversion.

The conservation of water resources in Idaho: This is a beneficial use.

Impacts to the economy of the local area or watershed: None.
