Boise, ID 83720-0098

Subject: Frisby Family LP Permits 63-31177, 63-31178 and 63-31505

Dear Michele,

Thank you for your letter dated July 28, 2008. In response, the following letter and attachments explain why ground water and surface water are not combined for irrigation on the Frisby Farm.

Applications 63-31177 and 63-31178 were originally filed for both primary and supplemental irrigation. Some of the proposed acres were considered new acres and some received water from the US Bureau of Reclamation (USBOR) and Black Canyon Irrigation District (BCID).

The applications were protested by USBOR. BCID later filed a petition to intervene. Both entities protested the applications due to their supplemental intent. They claimed that the Frisby's were proposing acres not authorized for delivery of surface water, also referred to as "expanded acres".

To resolve the protests and intervention, the Frisby applications were amended to separate lands irrigated with ground water from lands irrigated with surface water. Approved transfer No. 69956 was also filed on ground water right 63-10785 to change the licensed place of use to the designated ground water lands. To allow full appropriation of ground water for irrigation when the rights were combined, supplemental application 63-31505 was filed. As stipulated, special conditions were included on the ground water rights, making them subordinate to the USBOR water rights.

Supporting documentation is attached in chronological order. A 2006 aerial photo of the Frisby farm is also included to show which acres are irrigated with surface water and which acres are irrigated with ground water. Please let me know if you have any further questions. Thanks Michele.

Sincerely,

Lori Graves
Water Rights Specialist

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

NOTICE OF PROTEST

This form may be used to file a protest with the department under section 42-108B, 42-203A, 42-203C, 42-211, 42-222 and 42-224, Idaho Code. The department will also accept a timely protest not completed on this form if it contains all the necessary information.

1. Matter being protested Application for Permit No. 63-31177 in the name of Rod and Maureen Frisby 6208 Southeast 8th Avenue Caldwell, ID 83605
2. Name of protestant United States Department of Interior acting through the Bureau of Reclamation
3. Protestant's Representative for service (If different than protestant)
E. Gail McGarry, Manager Water Rights and Acquisition, Pacific Northwest Region, Bureau of Reclamation
Kathleen Carr, Attorney, Office of the Boise Field Solicitor, United States Department of Interior
4. Service mailing address
E. Gail McGarry, EN-3100, Bureau of Reclamation, 1150 N. Curtis Road, Suite 100, Boise, ID 83706-1234
Kathleen Carr, Office of the Field Solicitor, Federal Building, Rm 365, 550 West Fort St. Boise, ID 83724
5. Service telephone no. E. Gail McGarry (208) 378-5306; Kathleen Carr (208) 334-1911
6. Basis of protest (including statement of facts and law upon which the protest is based)
Injury to Reclamation project water rights. There is no way to measure or determine whether or not Reclamation project water is being used on non-project lands since the delivery system for both sources is the same. Furthermore, Reclamation project water, co-mingled with well water is not permitted without Federal approval
7. What would resolve your protest? Exclusive system for project and non-project water precluding application of Reclamation project water to non-project lands or comingling of water. Applicant must demonstrate water to be appropriated is not waste seepage or return flows from the Reclamation project.

I hereby, acknowledge that if I, or my designated representative, fails to appear at any regularly scheduled conference or hearing in the matter of which I have been notified at the address above, the department may issue a notice of proposed default against me in this matter for failure to appear. I also verify that I have served a copy of this protest upon the applicant.

Signed this 26th day of Nov., 2001.

Subj: **Frisby Farms Application for Permit - Proposed Stipulated Conditions**
Date: 04/01/2002 3:54:33 PM Mountain Standard Time
From: mcc@givenspursley.com
To: gspackma@idwr.state.id.us, chas@mcdevitt-miller.com, kcarr@pn.usbr.gov
Sent from the Internet (Details)

The following is language for two conditions that Frisby Farms and the USBOR have agreed would resolve the USBOR protests of the Frisby Farms permit applications, provided IDWR indicates that it is prepared to include them as written in any permits issued to Frisby Farms:

1. Use of ground water under this [permit/license] is subject to administration as a water right from connected sources in accordance with applicable laws and regulations.
2. Use of ground water under this [permit/license] is subject to present and future authorized uses of existing water rights of the United States Bureau of Reclamation, including the right to reuse project waste, seepage and return flows in accordance with applicable laws and regulations.

I would appreciate the favor of your reply acknowledging receipt of this e-mail.

Sincerely,

Michael C. Creamer

Re: Application for Permit Nos. 63-31177 and 63-31178

Dear Parties:

The Idaho Department of Water Resources (IDWR) received a petition to intervene from Black Canyon Irrigation District in the above-referenced matter. IDWR records show you received a copy of the petition.

Any objection to the petition to intervene must be filed on or before February 28, 2002.

Please feel free to contact this office if you have questions about the procedure for intervention or other matters related to the application.

Sincerely,

Gary Spackman

RECEIVED

APR 15 2002

Givens Pursley, LLP

Dear Mr. & Mrs. Frisby:

As a result of Mr. Frisby's appearance before the Board of Directors of the Black Canyon Irrigation District on April 2, 2002, the Board asked me to transmit to you their decision on your requested exemption from paying a double penalty under the Board's policy for irrigating expanded acres with Black Canyon Irrigation District water.

The Board appreciates the fact that you have expended considerable time and energy in an attempt to resolve the problem of expanded acres and in that vein in an attempt to cooperate with you, have reached the following decision:

Prior to the delivery of water to you for the irrigation of the expanded acres (which acres are those set forth on the Affidavits signed by you in April of 2001, appended hereto and made a part hereof as if set forth at length herein) you will pay the full penalty for those expanded acres being irrigated.

If you have a well(s) producing water in accordance with your agreement with the Bureau of Reclamation and BCID prior to the time that the District stops delivering water to its users in the fall of 2002 the District will refund to you one half of the monies paid to you for the delivery of water for the 2002 irrigation season.

Pursuant to the settlement you have reached the District will, following the 2002 irrigation season, remove the head gates on the west side of I-84 appurtenant to the property owned by you at that location.

Rod and Maureen Frisby Family Limited Partnership
April 4, 2002 - Page 2 of 2

All other terms and conditions of your settlement remain in force.

If you have any questions concerning this matter please let me know.

Very truly yours,

McDEVITT & MILLER LLP

SCANLAN ENGINEERING

Groundwater and Environmental Engineering

April 30, 2002

Gary Spackman
Idaho Department of Water Resources
2735 Airport Way
Boise, ID 83705

Subject: Water Right Applications – Frisby Family Limited Partnership

Dear Gary:

On behalf of Frisby Family Limited Partnership, Scanlan Engineering is pleased to submit the following three water right applications.

- (1) Application for Transfer of Water Right 63-10785, which is intended to clarify the distribution of irrigated acres within the currently described place of use for this licensed water right. The diversion rate of 1.70 cfs for irrigation of 292 acres (the licensed diversion rate and total acres) will not be changed.
- (2) Amended Application for Permit 63-31178, which is intended to clarify the distribution of irrigated acres within the same $\frac{1}{4}$ $\frac{1}{4}$ s proposed in the original Application for Permit. The original request for a diversion rate of 2.42 cfs for irrigation of 121 acres has not been changed. The 121 acres proposed for irrigation under 63-31178 will overlap lands irrigated by 63-10785.
- (3) A new Application for Permit proposes diversion of 1.92 cfs for irrigation of 302 acres. This application seeks to appropriate supplemental water for the 292 acres of land irrigated under 63-10785 and 63-31178, and a primary supply for up to 10 acres of additional irrigated area.

In combination, the three water rights propose a total diversion rate of 6.04 cfs (2,711 gpm). This combined diversion rate will provide no more than 0.02 cfs/acre (9 gpm/acre) over the 302-acre irrigated area. The applications have been prepared to allow the Frisby's to continue to irrigate their farm following recent changes in policy by the US Bureau of Reclamation and the Black Canyon Irrigation District that now require them to separate their lands that are irrigated with groundwater from their lands that are irrigated with surface water supplied by the Bureau and Black Canyon Irrigation District.

I have enclosed a \$330.00 check for the filing fee associated with the new application for permit.

Because the Amended Application for Permit 63-31178 does not propose irrigation in any $\frac{1}{4}$ $\frac{1}{4}$ sections that were not previously listed on the original application, and does not propose changes to the quantity, point of diversion, purpose or season of use originally applied for, we have assumed that this amendment can be accomplished administratively without the need for an additional filing fee or further legal notice. Thus, I have not included a filing fee with the application for to amend application for permit 63-31178.

Similarly, the Application for Transfer of water right 63-10785 does not propose irrigation in any $\frac{1}{4}$ $\frac{1}{4}$ sections that were not previously licensed under this water right. Since no other changes to the license are proposed, we assume that the change can be accomplished administratively without legal notice. Thus, I have not included a filing fee with the application for transfer.

Please contact me if you disagree with our assumptions or if you have any questions concerning these applications.

Sincerely,

Terry M. Scanlan, P.E., P.G.

Transfer No. _____

APPLICATION FOR TRANSFER OF WATER RIGHT
PART 1Name of Applicant Maureen Frisby and Rod Frisby Phone 208-459-0875Post Office address 6208 SE 8th Avenue, Caldwell, ID 83607

A. PURPOSE OF TRANSFER

1. ☐ Change point of diversion ☐ Add diversion point(s) ☒ Change place of use
☐ Change nature of use ☐ Change period of use ☐ Other _____

2. Describe the reason for the proposed changes Consolidate groundwater use on lands not irrigated with water from Black Canyon Irrigation District

B. DESCRIPTION OF RIGHT(S) OR PORTION THEREOF, AFTER THE REQUESTED CHANGE

Right Number	Priority	Amount (cfs/ac-ft)	Nature of Use	Period of Use
63-10785	11/28/1977	1.70/824.7	irrigation	3/15 to 11/15
				to
				to
				to

2. Total amount of water being transferred 1.70 cubic feet per second and/or 824.7 acre-feet per annum.

3. Source of water ground water tributary to NA

4. Point(s) of Diversion:

Lot	¼	¼	¼	Sec	Twp	Rge	County	Local name for diversion
		SW	NW	20	6N	3W	Payette	

5. Lands irrigated or place of use:

Twp	Rge	Sec	NE ¼				NW ¼				SW ¼				SE ¼				Totals
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
6N	3W	19	35	35															70
		20		35	35		39	37	37	39									222

Total Acres 292

PART 1**6. General Information:**

a. Description of diversion system well with turbine pump and pipelines to sprinklers

b. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts?

Yes No. If yes, provide a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes.

c. Describe the affect on the land now irrigated if the place of use is changed pursuant to this transfer:

Overlap with Black Canyon Irrigation District water use will be eliminated.

No change in total irrigated area is proposed, but commingling of District and groundwater sources will be eliminated.

d. Remarks:

See companion applications for permit.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Transfer of Water Rights No. _____

And the said application is hereby _____, subject to the following conditions:

Witness my hand this _____ day of _____, 20 _____.
