Subject: Frisby irrigation

Good morning Becky,
 This is verification request I discussed with you on the phone yesterday afternoon.

Rod and Maureen Frisby have some water rights which are in process with the Department of Water Resources. The Frisbys are claiming that the following areas are currently irrigated with groundwater only. Our files indicate that historically they were irrigated with surface water from Black Canyon Irrigation District. I need a confirmation from BCID.

Here are the tables of PLSS addresses from our database. Please let me know if this format doesn't work for you. I can submit these addresses in the form of a list. I also have aerial photos available if they will help you. Just let me know.

For 63-31178 and 63-31505 which are east of the freeway

Tw	Rge	Sec	NE		NW		SW		SE		NE		NW		SW		SE		NE		NW		SW		SE		Totals
