Looks like proof was submitted after 1987, so no SRBA claim was required or submitted. They have no other protection from forfeiture that we're aware of. 42-222 just says if no resumption or report is made, then the right reverts to the state and is again subject to appropriation. Have we ever issued a letter or notice that the right is forfeited based on non-response?

Re: Water right no. 37-7465A.

On Oct. 2, 2008, I sent a Notice to Resume Use for part A. I have not received a response. What's next?
