State of Idaho
Department of Water Resources
Amendment of Permit
NO. 63-12296

CONDITIONS OF APPROVAL

- ✓ 1. Proof of application of water to beneficial use shall be submitted on or before **November 1, 2011**.
- ✓ 2. Subject to all prior water rights.
- ✓ 3. Water bearing zone to be appropriated is 550 to 750 feet.
- ✓ 4. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.
- ✓ 5. Rights 63-3271, 63-3445, 63-3487, 63-7025, 63-8088, 63-30297, and 63-30298 are also diverted through the points of diversion described above.
- 6. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to determine the amount of water diverted from power records and shall annually report the information to the Department.
- ✓ 7. The Director retains jurisdiction to require the right holder to install and maintain acceptable measuring device(s), including data loggers, at the dedicated distribution lines to the authorized place of use for this right.
- ✓ 8. Place of use for municipal purposes is within the service area of the Idaho Department of Corrections as provided for under Idaho law. The place of use is generally described as within the state prison facilities.
- ✓ 9. A map depicting the place of use boundary for the municipal use component of this water right at the time of this approval is attached to this document for illustration purposes.
- ✓ 10. Municipal use includes irrigation of open spaces with the state prison facilities, but it does not include irrigation of agricultural cropland. However, municipal wastewater may be applied to agricultural cropland within the irrigation place of use to satisfy water quality requirements.
- ✓ 11. Water diverted for municipal use under this right is considered to be fully consumed.
- ✓ 12. This right is limited to the irrigation of 45 acres within the place of use described above in a single irrigation season.
- ✓ 13. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.5 af/a per acre at the field headgate for irrigation of the lands above.
- ✓ 14. Rights 63-3271, 63-3445, 63-3487, 63-7025, 63-8088, and 63-12296 when combined shall not exceed a total diversion rate of 19.54 cfs for irrigation use and the irrigation of 1,120 acres within the place of use described above in a single irrigation season.
- ✓ 15. Rights 63-3487, 63-7025, 63-30297, 63-30298 and 63-12296 when combined shall not exceed a total diversion rate of 10.41 cfs nor a total annual maximum diversion volume of 2469.0 af for municipal use.
- ✓ 16. Rights 63-3271, 63-3445, 63-3487, 63-7025, 63-8088, 63-30297, 63-30298, and 63-12296 when combined shall not exceed a total diversion rate of 26.24 cfs for all authorized purposes and the irrigation of 1,120 acres within the place of use described above in a single irrigation season.
- ✓ 17. The Director retains jurisdiction to require the right holder to provide purchased or leased natural flow or stored water to offset depletion of Lower Snake River flows if needed for salmon migration purposes. The amount of water required to be released into the Snake River or a tributary, if needed for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this permit.

State of Idaho
Department of Water Resources
Amendment of Permit

NO. 63-12296

CONDITIONS OF APPROVAL CONTINUED

18. The diversion and use of water described in this right may be subject to additional limitations agreed to by the protestant(s) and the right holder under separate agreement to which the Department is not a party and which may be enforceable by a court of law.

This amendment of permit is issued pursuant to the provisions of Section 42-211, Idaho Code. Witness the signature of the Director, affixed at Boise, this 8th day of November, 2006.

KARL J DREHER, Director
