

07/2008

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

NOTICE OF PROTEST

RECEIVED
NOV 13 2008
DEPT. OF WATER RESOURCES
SOUTHERN REGION

This form may be used to file a protest with the department under sections 42-108B, 42-203A, 42-203C, 42-211, and 42-222, Idaho Code. The department will also accept a timely protest not completed on this form if it contains the same information.

1. Matter being protested Water Transfer # 73968
2. Name of protestant V C PRUDEK
3. Protestant's Representative for service (If different than protestant)
SAME
4. Service mailing address PO BOX 615
5. Service telephone no. 208 543 4673 Email Address: none
6. Basis of protest (including statement of facts and law upon which the protest is based)

Wellpermits # 4711320, 4716818, 4711913 477419. This is an EMINENT DOMAIN ISSUE caused over appropriation of water rights. THE decline in the aquafir and reduced seepage flow is evidence of the serious nature of this problem.

(additional pages may be attached to describe nature of the protest)

NOTE ATTACHMENT

7. What would resolve your protest? CURTAILMENT OF INDUSTRIAL DEMAND which exceeds supply

I hereby, acknowledge that if I, or my designated representative, fails to appear at any regularly scheduled conference or hearing in the matter of which I have been notified at the address above, the department may issue a notice of proposed default against me in this matter for failure to appear. I also verify that I have served a copy of this protest upon the applicant.

Signed this 12 day of Nov., 2008.

RE: APPLICATION TO TRANSFER NO. 73968

DEAR SIR:

I am opposed to the above transfer in the strongest possible terms for it is not in the best interest of the State of Idaho and especially the residence of this region. Being born (16 JAN 1930) and raised in this area I have observed the impact on critical vital water resource both in quality and supply. MY reasons are many and varied which I WILL attempt to limit for brevity.

1. Water resources are over appropriated.
2. Decline of seepage flow to DEEP CREEK especially in the months of March and APRIL.
3. Well coning reduce flow.
4. Reduced recharge by changing irrigation practice.
5. Serious impact on Aqua Culture on Deep Creek.
6. Impact on domestic wells for residential use.
7. Financial cost to residence as wells fail and must be redrilled and deepen to sustain supply.
8. The failed POLICY of TOTAL DEVELOPMENT which ignored the fact that this resource is finite.
9. Curtailment is occurring by natural or edict for many years - in irrigation supply and Aqua Culture.
10. DECLINE OF HYDRO GENERATION.
11. Approval will expose State to further LIABILITY.

Please consider the above points carefully for the impact on the HUMAN EXPERIENCE IS VERY GREAT.

Sincerely Yours

V C PRUDEK
