REQUEST TO PROCESS

COMPLETE REQUEST IF YOU WANT YOUR APPLICATION TO BE PROCESSED
USING ONE OF THE THREE ALTERNATIVES BELOW

Name of Applicant Johnson Research, LLC
Mailing Address 24007 Highway 20/26
Parma, ID 83660

Application No. (if known) 63-32236 and 63-32237

 IN LOCAL PUBLIC INTEREST

Yes, I want my application processed and before it is advertised, I will amend my application to demonstrate that the proposed appropriation is in the local public interest including the need to preserve flows in the Snake River during the migration periods of anadromous fish.

 PROPOSE MITIGATION NOW

Yes, I want my application processed and before it is advertised, I will amend my application to include proposed mitigation to offset anticipated depletions in the Snake River during periods of anadromous fish migration.

 X WILL AGREE TO MITIGATION IN THE FUTURE IF NECESSARY

Yes, I want my application processed at this time, and I will accept a condition of approval that will require mitigation should the Director of the Idaho Department of Water Resources determine that mitigation is necessary to offset depletions from this appropriation to flows in the Snake River during periods of anadromous fish migration. I understand that mitigation is not required now but may be needed in the future. I also understand that the Director will not require mitigation until I have an opportunity to review the process by which the need for mitigation is established and the amount of water required is quantified.

Re: Applications for Permit Nos. 63-32236 and 63-32237

Dear Christian:

Your client's applications for permit to appropriate ground water in Basin 63 were recently received. Processing of the applications must be delayed as explained in this letter.

Both applications propose a consumptive use (irrigation). Due to continued drought and to protect existing water rights and water supplies, the Idaho Department of Water Resources (IDWR) declared a moratorium in 1992 against approval of new consumptive uses of public water. The moratorium was lifted in 1995. However, application processing was indefinitely suspended in 1996 pending policy determinations being considered by IDWR. At this time, IDWR cannot estimate when or if policy changes will allow application processing to resume.

Application 63-32236 describes proposed use in T5N, R4W, Section 6. Application 63-32237 describes proposed use in T5N, R4W, Section 8. The applications cannot be processed prior to an IDWR policy change unless the proposed uses are fully mitigated under an approved mitigation plan.

IDWR will hold the applications and will resume processing as soon as possible based on the above considerations. Delays related to department actions do not affect the date of priority or seniority of an application. You will be informed of any changes with respect to your client's applications.

Please contact me at 334-2190 if you need more information.

Steve Lester
