RE: Application for Permit #63-32108

Dear Mr. Walker:

As you are aware, our office is processing the above application filed by you on 06/16/04. On September 25, 2008, our office sent you a letter requesting application fees of \$75.00. Our agency received the \$75 fee on 10/08/08. Unfortunately, the \$75 fee request was in error, it should have been \$100 for the application, fee schedule is attached.

If you could remit the additional \$25 fee, our office will expedite the final public notice and processing of your application.

I apologize for the error and inconvenience caused.
Thank you for your cooperation.

Sincerely,

John Westra, Manager
Western Region

RE: Application No.: 63-32108

Dear Applicant:

Thank you for returning your Response Form for Application for Permit for No. 63-32108. However, in reviewing the file for this request we cannot find any evidence that a payment was made regarding this matter. The fee required for this application is \$75.

Because the Department cannot process the Application without proper fees, we will hold any action on your notice pending receipt of the necessary fees. If we do not receive the necessary fees within 30 days we will issue an order to void your application.

Thank you for your patience and cooperation. Feel free to contact our office if you have any questions concerning this letter at 334-2190.

Sincerely,

Jean Hersley

RE: Held Application for Permit #63-32108--Filed 07/16/04

Dear Applicant:

As you aware, the above reference application for permit located in the Boise River Basin has been held by our agency since the 1990s. The Department began holding new groundwater applications for consumptive use due to prolonged drought and concerns about declining aquifer levels. As a result, the Treasure Valley Ground Water Study was initiated. The study was completed in 2002, and now provides modeling for projecting future groundwater availability in the valley. Our agency will commence processing held applications as staff resources are available.

Attached is a proof profile of your application as submitted to our agency. Please check carefully the specifics on the application. You must still have full possessory interest-ownership in the listed point of diversion and place of use land locations for processing consideration.

We are asking for you to convey your intentions regarding this application by completing the attached response form. *Please respond to the following:*

- If you desire to develop the water use, and wish our agency to complete the processing of your application, please mark the *YES* response, provide any updates/changes needed, and list the water bearing zone for the well source.

OR

-Mark the *NO* response to withdraw the application. The application will be removed from processing and our records. Our agency will not be able to provide refunds of fees for withdrawn applications.

-Sign, date, and return the response. Response forms need to returned to this office no later than 30 days of this letter date.

Should you have questions about further processing of this application, please contact Denise Buffington or John Westra at the Western Regional Office, phone 334-2190.

Sincerely,

John Westra, Manager Western Region

Re: Application for Permit for Pre-November 1987 Development

Dear Mr. Walker:

The Idaho Department of Water Resources (IDWR) received your application proposing a new water right in an area where IDWR has restricted new appropriations of water. Your application states that the proposed water use was developed prior to November 1987. IDWR has been considering and approving new applications in restricted areas if the applicant can verify use prior to November 1987.

The authority of IDWR to issue such approvals in restricted areas was recently challenged in a legal proceeding. That challenge is being evaluated at this time. Based on the final outcome of that process, IDWR will determine if processing of your application can continue.

Your application will be held until this matter is resolved. This office will keep you informed of any changes in this regard. Delays related to department actions do not affect the proposed date of priority or seniority of an application.

IDWR forms and other information are available on the Internet at www.idwr.state.id.us. Please contact me at 208-334-2190 if you need more information about your application.

Respectfully,

Daniel A. Nelson
Sr. Water Right Agent
