

PROPOSED CHANGE OF WATER RIGHT

Eisenman Family Trust of 16011 194th Ave SE, Renton WA 98058-0901 filed Application No. 73788 to transfer a water right with a 1976 priority date from ground water totaling 1.5 cfs. The purpose of the transfer is to split the right by moving a portion to a separate system several miles north of the existing system. The new system will include up to 16 possible well sites to irrigate 50 acres within two square miles. This will probably include moving this portion of the right around within the new place of use, probably using 1 or 2 different new wells at a time. The applicant seeks 5 years to complete the changes. The new site will be just west of Simco Road from the Simco Exit to about 2 miles south of 184.

The 25 acre balance of the right will remain with a well just east of Simco Road about 5.5 miles south of the 184 Simco Exit.

For specific details regarding the application, please contact the Idaho Department of Water Resources (IDWR) Western Region at 208-334-2190 or visit www.idwr.idaho.gov with detail provided under "new water right applications." Protests may be submitted based on the criteria of Sec 42-222, Idaho Code. Any protest against the proposed change must be filed with the Director, IDWR Western Region, 2735 Airport Way, Boise ID 83705-5082 together with a protest fee of \$25.00 for each application on or before December 22, 2008. The protestant must also send a copy of the protest to the applicant.

DAVID R. TUTHILL, JR., Director
