Re: Transfers of Water Right Application- Roth Investments LLC

Dear Mr. Latham,

We recently received the applications you filed, on behalf of the Roth Investments LLC, to transfer water rights 36-7894A & 36-7894B. After a preliminary review, it was determined the applications do not meet the minimum criteria to be processed. Because of this, the applications along with the ownership change and the fees paid by Brockway Engineering (check #7883) for \$350.00 are being returned. In order to process the applications, the following items need to be corrected:

The transfer fee for Application #1 should be \$410.00 based on 4.07 cfs for the 218.7 acre increase for the permissible place of use. The fee for the ownership change is \$100.00. The fee for transfer #2 is \$250.00. We need a total of \$760.00 for the two transfers and ownership change.

Water Right 36-14759 needs to be added to transfer #2 (the stockwater/ commercial transfer) as it is diverted from the same points of diversion as right 36-7894B. Since a new point of diversion is being added to right 36-7894B, then a new point of diversion is also being added to right 36-14759. Additionally a map is needed for transfer #2 showing the proposed places of use (stockwater, commercial, and domestic) and points of diversions including the location of the new well.

Once we have received the correct items, the department can continue to review and process the application.

Sincerely,

Benny Walker
Water Resource Agent
