Subject: 35-13542 South Interchange Properties LLC - Draft Approval

Shelley,

Here is the first draft of the Permit with suggested conditions. I still have a question about the mitigation rights & shares from Palisades. We don't have any ownership documentation for either, only a statement from Kent Foster noting the "applicant controls an ownership interest". Do we need proof of ownership prior to modifying the water right records to mitigation? They are currently in the name of David Kuhn. Do we need proof of ownership of canal shares?

Dave Carlsen responded regarding the historical use of the mitigation rights. I have included the e-mail below. It appears that they are available for some of April or a month or less. No response from Ernie yet.

RE: Permit
5-13542 South Inte.

35-13542 South
Interchange Pro...

I'll look forward to seeing the final result.

Pam
