Re: Application For Permit to Appropriate the Public Waters of the State of Idaho
Eric E. Madson, 98-7876

Dear Mr. Hardy:

Enclosed for your review is an electronic version of Mr. Madson's application. Please note, the points of diversion for this application were to correspond with the existing points of diversion for rights 98-117A and 98-117B, however, in the analysis for this application the department determined the points of diversion designated as being on Cow Creek for right 98-117B, located in the NWSE and SWSE are actually on an unnamed stream instead of Cow Creek. The actual points of diversion stay the same only the designed name has been changed.

If the application meets with your approval, please have Mr. Madson sign the document and return it to me within the next 30 days so as not to delay processing and if you have any questions, feel free to contact me at this office.

Sincerely,

Keith E. Franklin
Senior Water Resources Agent

Enclosure(s)
