Director:

We would like to let you know
of our concern of a water application
submitted by Eric E. Madson *98-7875,
*98-7876

We don't understand all of this as
my husband says there is only
one creek on their place. It
runs ~~from~~ from their place through
our place. If they take that
much water it will dry the
stream up. My husband took
these pictures last week and
this is all the water running out
now. We are leaving for Nampa

today (Sept. 2). My husband will
be back Sept. 11. His cell
phone # is 208-610-9188. Our
home phone is 208-269-3393.
We have a lot of concerns about
this and would appreciate
hearing ~~from~~ from you. Please
call on the cell number at
any time.

Thank you,

Gary B Atkins
