

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

1. Name of Applicant Jimmy Young and/or Wendy Adams Phone (208) 495-1467
Mailing address 6864 W. Dickman Rd, Melba, ID 83641
2. Source of water supply Ground water which is a tributary of N/A
3. Location of point of diversion is Township 1 N. Range 1 W. Sec. 19, in the SW $\frac{1}{4}$, of the NE $\frac{1}{4}$, Govt. Lot Ada County;
additional points of diversion if any: _____
4. Water will be used for the following purposes:
Amount 0.63 cfs for Irrigation purposes from Mar. 15 to Nov. 15 (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
5. Total quantity to be appropriated is (a) 0.63 and/or (b) _____
cubic feet per second acre feet per annum
6. Proposed diverting works:
 - a. Describe type and size of devices used to divert water from the source Submersible well pump, electric, 2 stage - 25 HP, wheel lines, hand lines 4" both, will work with commercial irr. company for final design.
 - b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet
 - c. Proposed well diameter is 8" inches; proposed depth of well is 80 feet
 - d. Is ground water with a temperature of greater than 85°F being sought? _____
 - e. If well is already drilled, when? _____; Drilling firm _____;
Well was drilled for (well owner) _____; Drilling Permit No. _____
7. Time required for completion of works and application of water to proposed beneficial use is 1 years (minimum 1 year)
8. Description of proposed uses (if irrigation only, go to item 9):
 - a. Hydropower; show total feet of head and proposed capacity in kW. _____
 - b. Stockwatering; list number and kind of livestock. _____
 - c. Municipal; show name of municipality. _____
 - d. Domestic; show number of households. _____
 - e. Other; describe fully. _____

RECEIVED

WATER RESOURCES
WESTERN REGION

9. Description of place of use:

a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.

b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
1N.	1W.	19			15.99														
					Irr.														
1N.	1W.	19			15.50														
					Irr.														

Total number of acres to be irrigated 31.57

10. Describe any other water rights used for the same purposes as described above. _____

11. a. Who owns the property at the point of diversion? Jimmy Young and/or Wendy Adams

b. Who owns the land to be irrigated or place of use? Jimmy Young and/or Wendy Adams

c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: _____

12. Remarks: _____

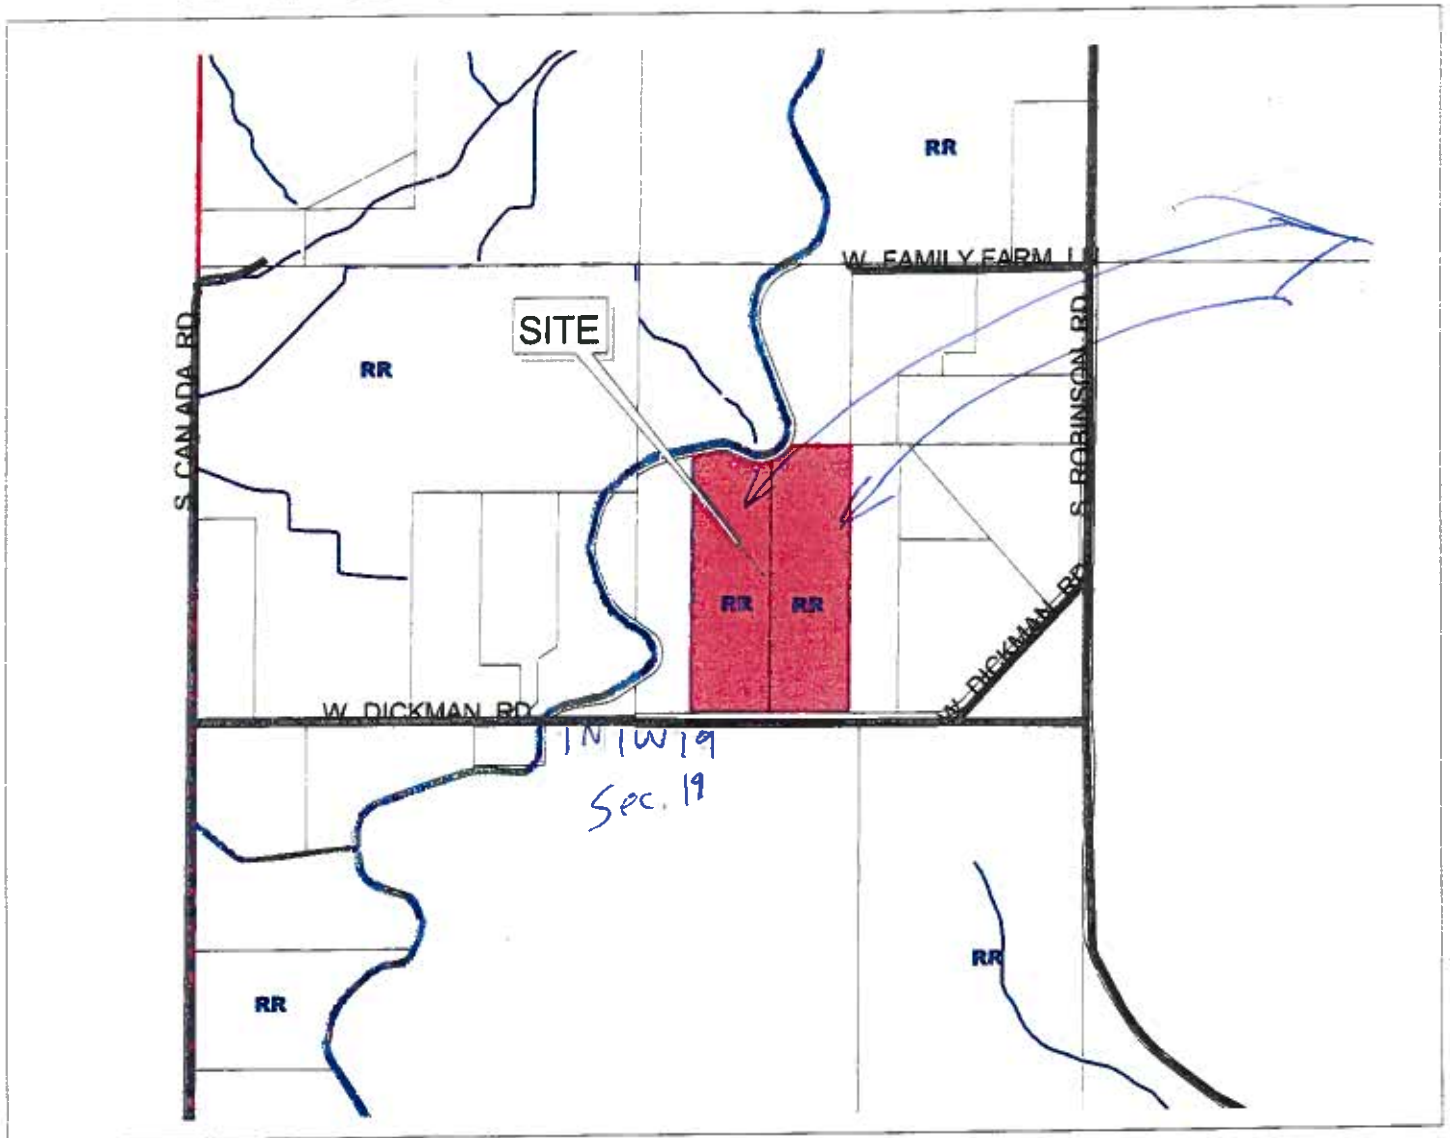

13. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½"x11" map clearly identifying the proposed point of diversion, place of use, section #, township & range. (A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred.)

BE IT KNOWN that the undersigned hereby makes this application for permit to appropriate the public waters of the State of Idaho as herein set forth.

RE: Held Application for Permit #63-32220--Filed 11/21/05

Dear Applicant:

As you aware, the above referenced application for permit located in the Boise River Basin has been held by our agency due to concerns about declining aquifer levels and lack of technical data to evaluate conditions. A ground water study has been completed, and now provides modeling for projecting future groundwater availability in the valley. Our agency is again processing held applications as staff resources are available.

Attached is a proof profile of your application as submitted to our agency. Please check carefully the specifics on the application. **You must still have possessory interest-ownership in the listed point of diversion and place of use land locations for processing consideration.**

We are asking for you to convey your intentions regarding this application by completing the attached response form. *Please respond to the following:*

- If you desire to develop the water use, and wish our agency to complete the processing of your application, please mark the **YES** response, provide any updates/changes needed, and list the water bearing zone for the well source.

OR

-Mark the **NO** response to withdraw the application. The application will be removed from processing and our records. Our agency will not be able to provide refunds of fees for withdrawn applications.

-Sign, date, and return the response. Response forms need to returned to this office no later than 30 days of this letter date. The application will be order void after 30 days if no response is received.

Should you have questions about further processing of this application, please contact Denise Buffington or John Westra at the Western Regional Office, phone 334-2190.

Sincerely,

John Westra, Manager Western Region

Re: Application for Permit No. 63-32220

Dear Applicant:

Your application for permit to appropriate public water for a consumptive use was received on November 21, 2005. Processing of the application must be delayed as explained in this letter.

Due to continued drought and to protect existing water rights and water supplies, the Idaho Department of Water Resources (IDWR) declared a moratorium in 1992 against approval of new consumptive uses of public water, regardless of source. The moratorium was lifted in 1995, but application processing was subsequently suspended pending technical data necessary to fully evaluate such applications. At this time, IDWR cannot estimate when processing of applications such as yours will resume. The situation is not expected to change in the foreseeable future.

Three options might be worth exploring as follows.

1. Transfer an existing valid water right from other property to your land. This would involve a private agreement between the buyer and seller plus an Application for Transfer of Water Right to be filed with and approved by IDWR.
2. Mitigate your proposed use by obtaining a valid water right from another owner and then abandoning that water right to mitigate your proposed use. This would include filing a Notice of Change in Water Right Ownership with IDWR together with written abandonment of that right.
3. Mitigate your proposed use with another type of mitigation plan approved by IDWR.

The difficulty with any of the above options is that IDWR recently implemented a "transfer processing delay." The concept of using an existing older water right to mitigate your new proposed right would most likely be subject to this transfer delay. That delay is expected to last through most if not all of 2006 as the department concentrates its limited resources on completing the Snake River Basin Adjudication (SRBA) for the local area. SRBA complications prevent the processing

Application for Permit No. 63-32220

November 30, 2005

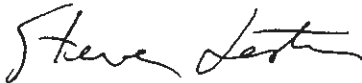

Page 2

of a related transfer application or other mitigation plan involving an older water right subject to SRBA review and validation.

This office will hold your application and will resume processing as soon as possible based on the above considerations. Delays related to department actions do not affect the date of priority or seniority of an application. You will be informed of any changes with respect to your application.

IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please contact me at 208-334-2190 if you need more information.

Sincerely,

A handwritten signature in black ink, appearing to read "Steve Lester". The signature is fluid and cursive, with the first name "Steve" and last name "Lester" clearly distinguishable.

Steve Lester

Water Rights Supervisor
